News Release

For Immediate Release

Grand Street lane closures

Starting Monday, May 20, 2013, Hartman and Company of Springfield will begin construction on Grand Street from Holland Avenue to Kings Avenue. Construction activities will impact traffic lanes on Grand Street from Holland Avenue to Kings Avenue. Two-way traffic will be maintained on Grand Street, however only two lanes of traffic will be maintained. Expect frequent lane shifts and major delays at times. John Q Hammons Parkway and Clay Avenue will be, at times, closed to traffic north of Grand Street. It is recommended that an alternate route is used to avoid construction.

Please use caution and drive slowly in this work zone. The construction is scheduled for completion in August 2013.

For more information, contact: Andrew Flippin, City of Springfield, at 864-1946.
